

NJLA Information Technologies Section

Vision

Making IT Simple!

Purpose

Provide opportunities for members to exchange information, gain firsthand knowledge of new technologies and how they impact libraries, and offer solutions to selection, implementation, and maintenance issues.

Goals

- Provide a variety of forums for information exchange among members.
- Identify emerging technologies from inside and outside the library profession for their impact on library services.
- Increase active membership to develop a diversity of viewpoints, skills and interests.
- Offer learning opportunities through a variety of methods, especially hands-on trainings.
